Company contact information for further inquiries.

1. Company Overview

Xiamen Goodwood Industry Co., Ltd. is a leading wholesale manufacturer of high-quality plantation shutter components and fully assembled shutters, leverages its expertise in production and export to assist trade partners in seamless output and import from China.

We supply to assemblers and manufacturers seeking quality shutter components, importers and distributors ensuring a steady supply chain, retailers and resellers selling finished shutters to end consumers, and wholesalers distributing shutters in bulk to smaller retailers.

2. Goodwood Products

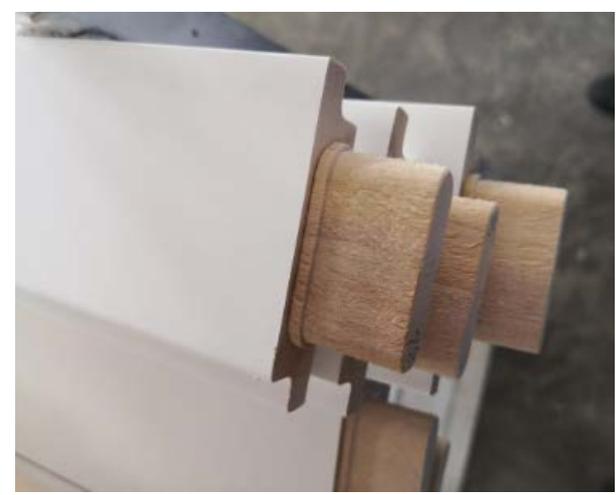

PVC Shutter Components

100% virgin PVC

Hollow PVC Components

A more cost-effective option

Wood Shutter Components

Basswood, Poplar, Paulownia, Pine

Fully Assembled Shutters

Custom-built to suit every budget

PVC Shutter Components

100% Virgin PVC

Uses 100% virgin PVC for superior performance.

60 Extrusion Lines

Capable of producing 60 containers per month.

Extensive Profiles

Over 250 existing profiles to meet diverse needs.

Quick Lead Time

7-10 days lead time from order confirmation.

TopCoat Technology

Better lead-mark resistance and thermal insulation.

5 Color Options

5 standard white colors with consistent color matching.

Hollow PVC Components

CostEffective Solution

A more affordable option to help customers stay competitive in the market.

Ongoing Design Development

Currently developing new designs for a perfect, customizable fit.

White Primed Timber Components

Timber Options

Basswood, Poplar, Paulownia,
and Radiata Pine

Ready-to-Paint

Pre-primed for a smooth, flat
finish, no sanding required.

Efficient Assembly

Primed components for a
more efficient production.

Cost & Time Savings

Reduces labor costs and time
during the assembly process.

Faster Delivery

Speeds up the overall delivery
time for shutters.

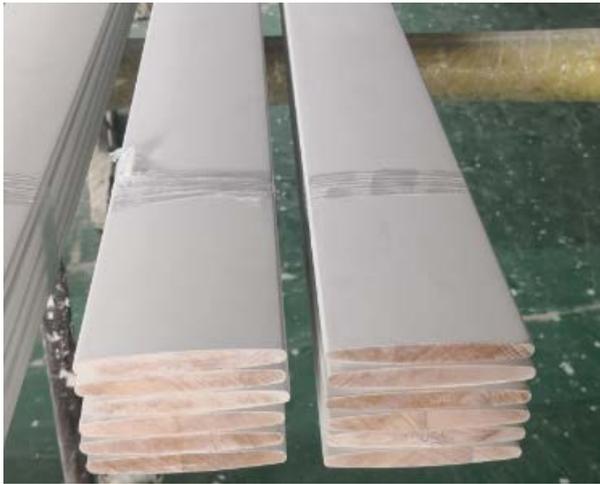

Reliable Quality

No issues with bending,
cracking, or chipping.

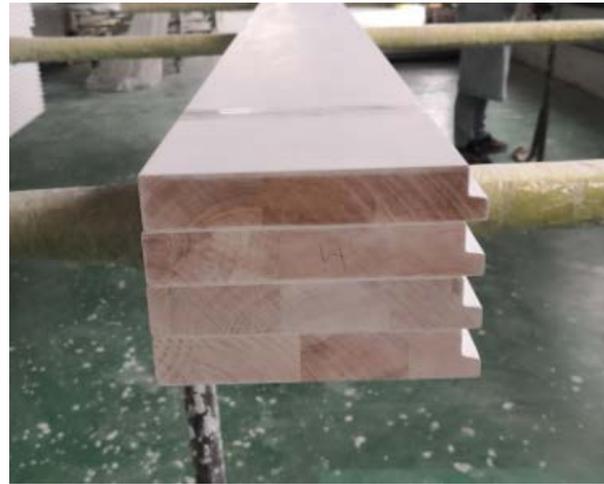

PrePainted Basswood Components

Quick Assembly

Fast and easy for shutters assembly saving time and labor costs.

Clean & Efficient Process

Pre-painted components keep your workshop clean and reduce times.

Low Defect Rate

No cracking or chipping issues, ensuring high-quality shutters.

Custom Painting

Custom-designed painting machine for precise louver end finishes.

Fully Assembled Shutters

PVC Shutters

Options include solid, reinforced, and hollow PVC shutters for diverse needs.

Timber Shutters

Made from Ashwood, Basswood, Poplar, Paulownia, Radiata Pine, and PVC-wrapped.

3. Factories Overview

- **Poly & Wood Shutters:** Located in Shanghai, focusing on high-efficiency production.
- **Timber Components:** Situated in North China, specializing in timber shutter components.

PVC Components & Finished Shutters Workshop

Equipped with advanced PVC extrusion production lines and a modern shutter assembly workshop, ensuring efficient production and strict quality control.

Timber Components Workshop

Advanced Equipment

Equipped with the latest machinery to ensure high precision and efficiency.

Exquisite Craftsmanship

Skilled craftsmen ensure that each timber component meets the highest quality standards.

Strict Quality Control

Each production stage is rigorously inspected to ensure product quality.

Shutter Hardware & Accessories

Diverse Options

Offering a wide range of hinges, locks, and other essential accessories in various sizes and styles.

Premium Materials

All accessories are made from high-quality materials to ensure durability and aesthetic appeal.

Perfect Fit

Accessories are perfectly matched with shutter components, ensuring easy installation and a harmonious appearance.

4. New Innovation

1

Concealed System

Developing a new concealed system for timber shutters to enhance aesthetics.

2

PVCCoated Timber

Combining the benefits of timber and PVC to create high-performance shutters.

3

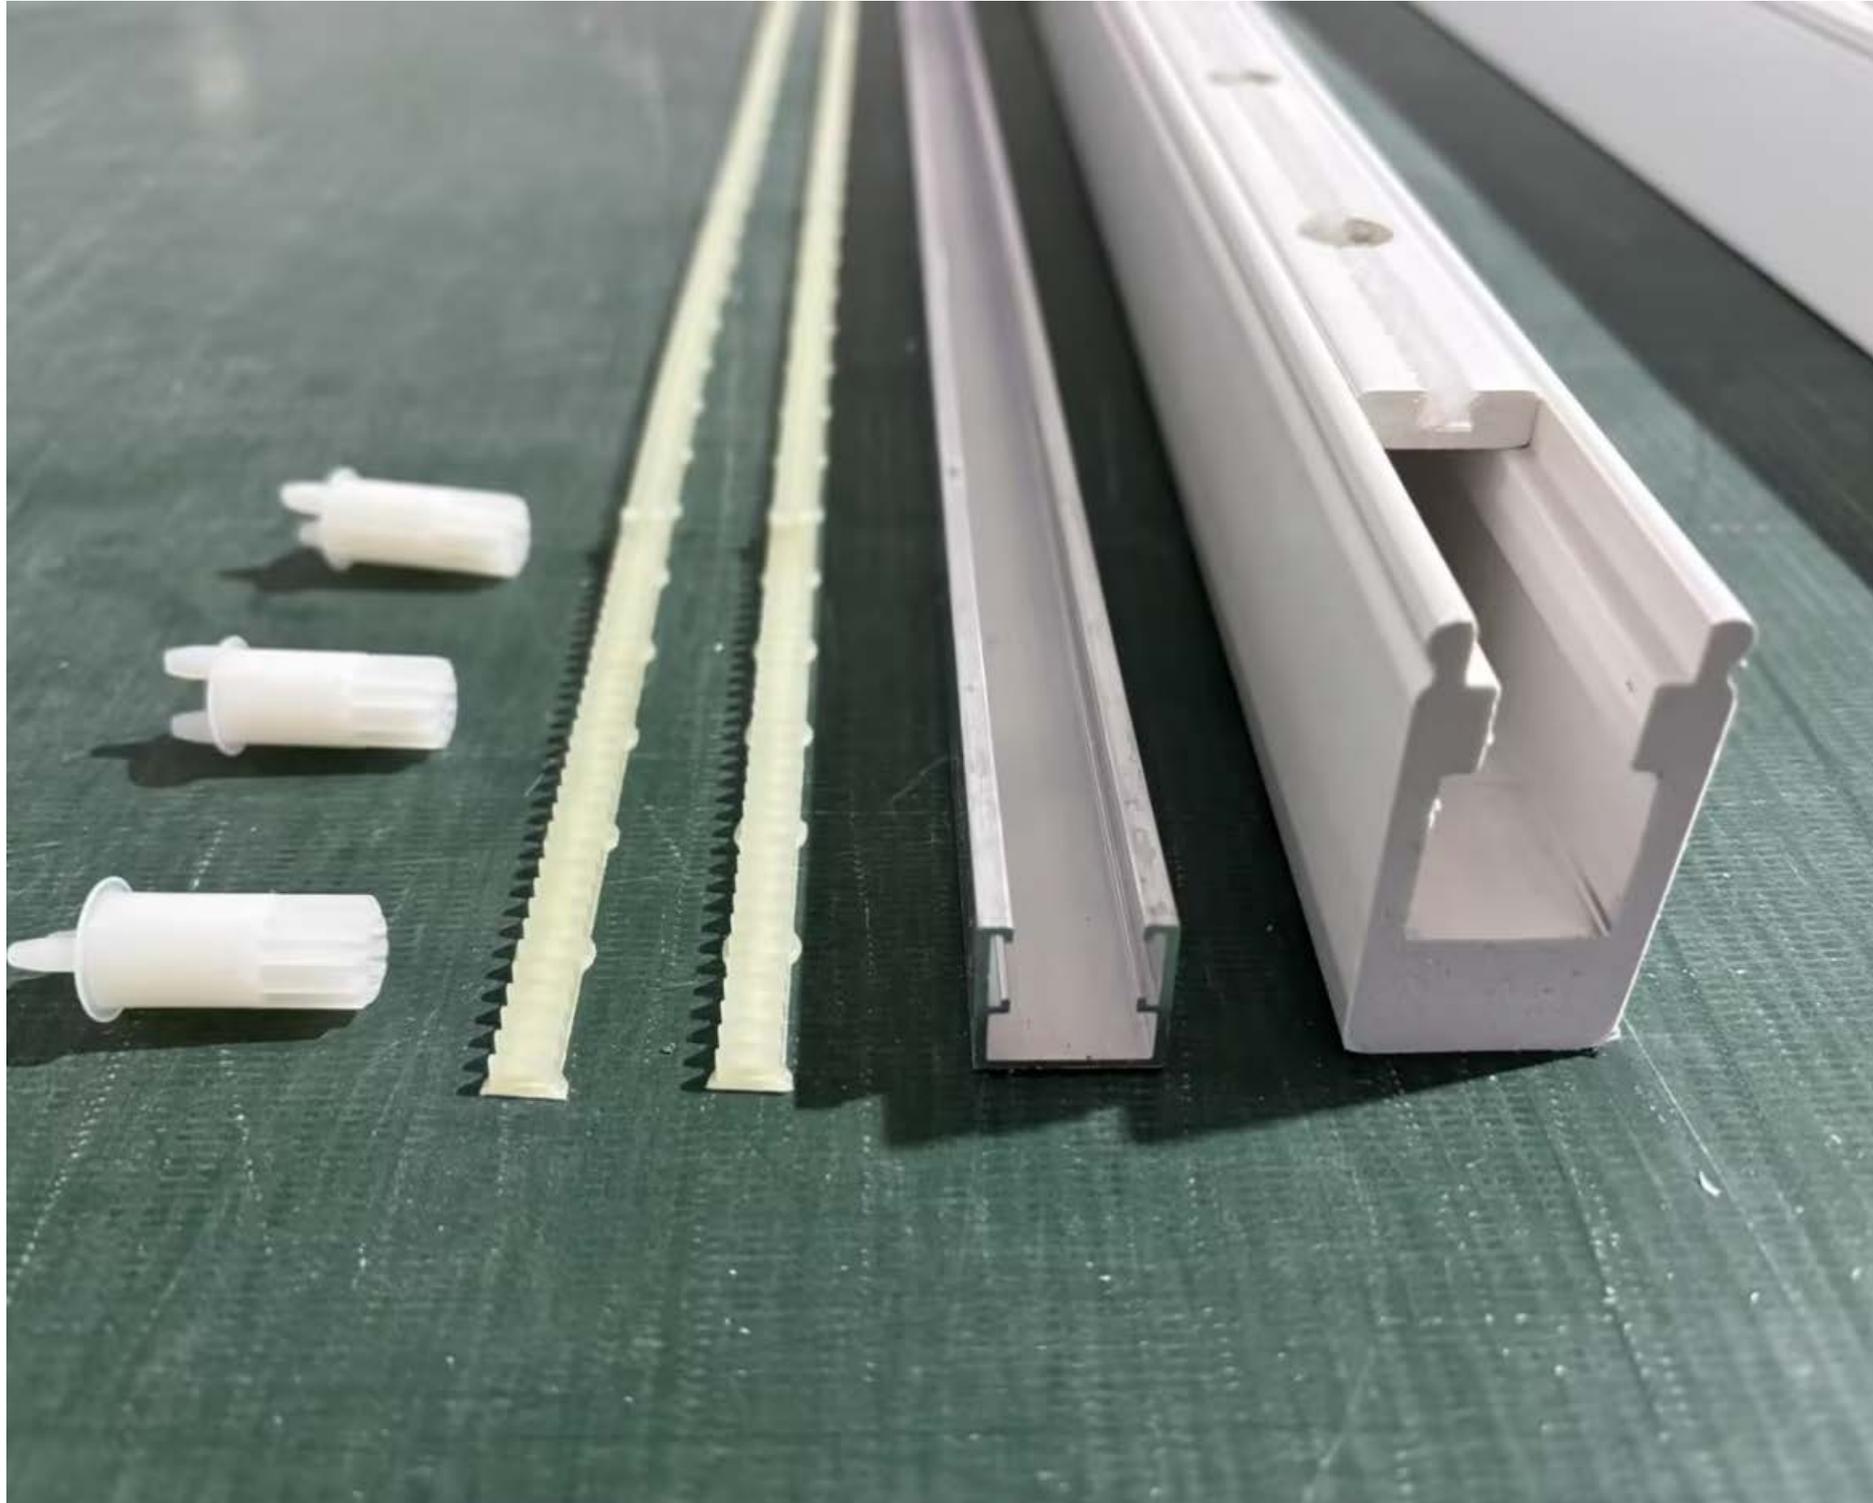

Thermal Insulation Coat

Developing efficient thermal insulation coatings to improve the energy-saving performance.

4

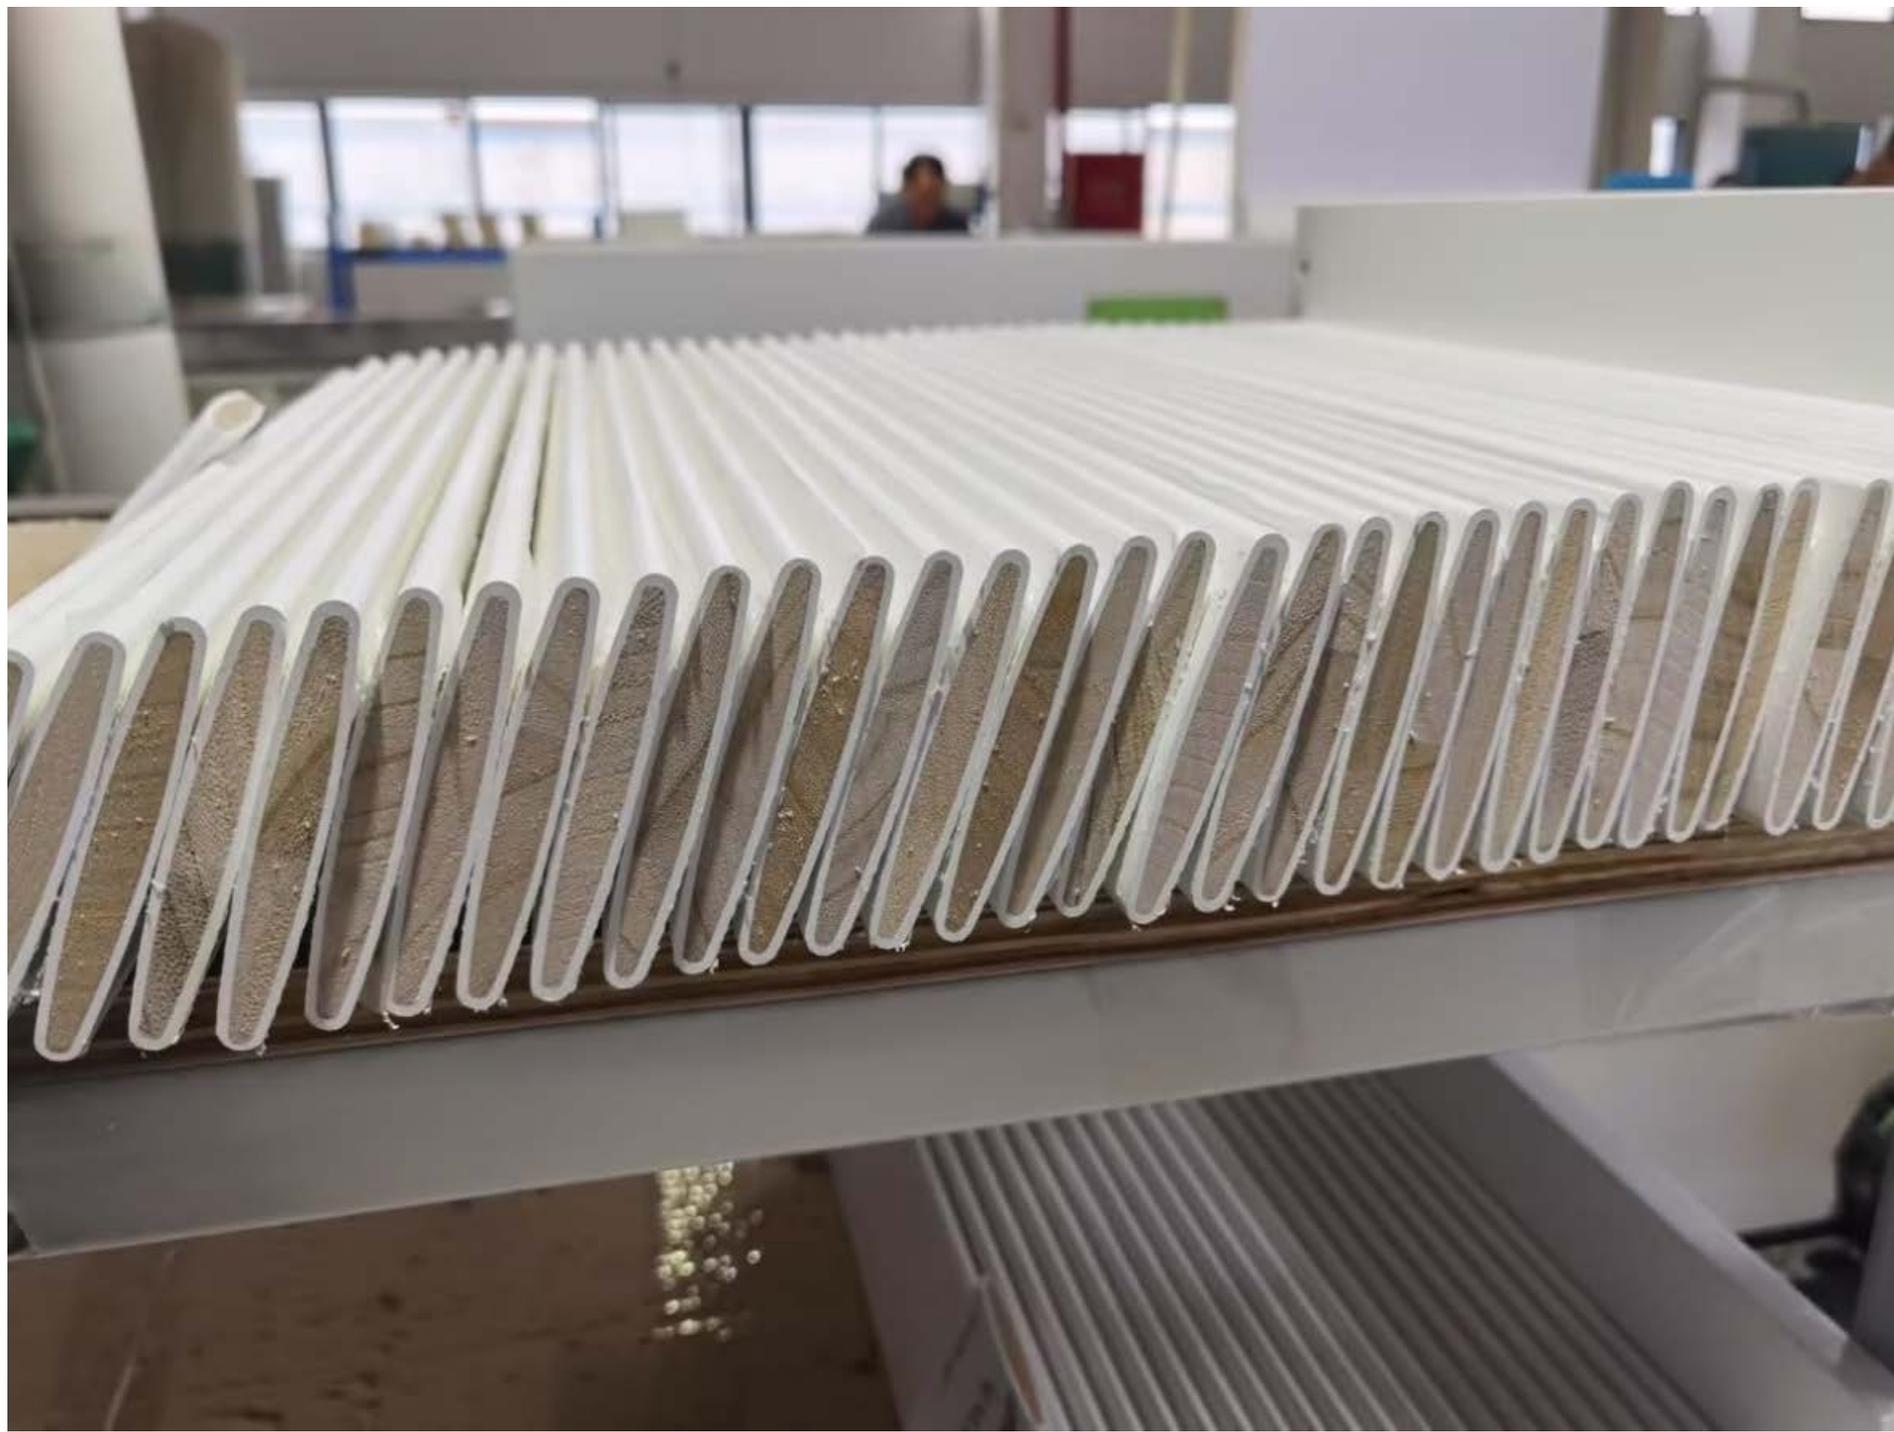

Enhanced Shading

Combining honeycomb shades to create a new blackout shutter solution.

Concealed System

Developing a new concealed system for timber shutters to enhance aesthetics.

PVGCoated Timber

Combining the benefits of timber and PVC to create high-performance shutters.

Enhanced Shading

Combining honeycomb shades to create a new blackout shutter solution.

5. Goodwood Benefits

Rich Experience

1

With over 20 years of overseas experience, we understand the importance of consistent supply and quality.

2

Strict Quality Control

We monitor production throughout the process to ensure every component meets the highest standards.

Strong R&D Team

3

Our professional R&D team develops new products every year to help customers stay competitive in the market.

4

Customer Protection

We focus on manufacturing in China, avoiding trade shows or direct sales, and growing together with our customers.

Stable Supply Chain

5

We emphasize long-term partnerships, ensuring reliability in quality, price, and shipping.

6

Doorto-Door Service

We offer timely communication, regular overseas visits, and comprehensive customer support.
